

## Improve Outcomes

- Detect Infections Accurately and Early with built in McGeers criteria
- Reduce outbreak duration and severity
- Track Resident and Staff infections for a broader picture

## Customizable

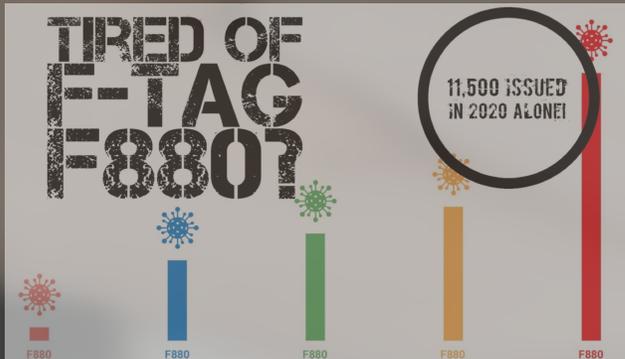

- Customizable dropdowns allow users to track almost any specific infection, sub type, organism or even variant and so much more.
- Software that works with you to meet local and state health regulations/surveys no matter your location

## Save Time and Resources

- Review all infection control metrics easily and efficiently. No more paper or Excel tracking and reporting
- Conduct Hand Hygiene and PPE audits rapidly with no additional data input

## Staff Friendly Design

- Easy-to-use mobile applications help staff with quick and almost effortless documentation
- Visualize your data on our handy customized floormaps or in our simple to use reports
